Re: Letter of Resignation

Ut Prosim (That I May Serve)

I have been called upon by USA Boxing to serve the National Operations & Events department in Colorado Springs. **I will be resigning my position on the Gulf LBC Board of Directors effective August 21, 2017.**

I will remain available to assist during the transition and reorganization of the Board of Directors and will help to fulfill obligations to which I've committed. I will always be a phone call or message away from being able to help.

I joined USA Boxing Gulf to serve the athletes and coaches by bringing positive changes and quality improvements to the way we do things. It has been an honor and greatly gratifying to have been able to serve the members of the Gulf Boxing Association. I thank you for allowing me to be witness and contribute to the great success that you've achieved during this time.

I've learned from tremendous mentors who have taught me not just about the Sweet Science but also about tradition and ethics. Boxing in our area is second to none, it always has been and always will continue to be.

I urge each of you to analyze your own service and time obligations to your own athletes, members and parents. The strength of the LBC's strong foundation is vital to our national successes and for this to continue each of you must find your own calling and areas that you are able to contribute on committees, on trips with regional and national teams, as officials and on the Board of Directors.
